### Kids Craft Clsses for 2008

**Scrapbooking:** Is run every second Saturday afternoon. The first Class is always started on the first Saturday back from holidays. Time: 1pm - 3pm Scrapbooking is a great craft for young kids to get involved in. I have taught scrapping for the past 12 months with children as young as 7 years old upto teenagers. I find the kids love the chance to create photo-album pages with photo's of themselves, family, pets and other special occasions they have been to, and adding their own creative style with embellishing their pages. **Hand Sewing:** Is run after each scrapping class each fortnight as well. Time: 3pm - 5pm I have found that a lot of children don't know how to sew, and have been asked by many customers to run a basic sewing class for kids, which I started this past school term with great rewards and lots of laughs from the kids. Currently students are working on a hexagon flower to stitch onto a calico bag. Their second project is with Christmas in mind. We are making a Merry Christmas Swag again we are using hexagons, but this time learning to blanket stitch the lettering. Cost: Individual class costs are: \$8.00 for scrapping, and \$10 for sewing. If the student wishes to do both classes \$15.00 per child. Each student is eligible for 10% discount on any product used for classes. For any more information please call us at Zena's Fabrics (08)9291 9001
